INTRODUCTION

Welcome to the Journal of Astronist Studies

The *Journal of Astronist Studies* (JAS) is an annual peer-reviewed academic journal published by the Astronist Institution. It is the only journal in the world to focus solely on published research papers on space religions and philosophies of space exploration. Although the origins of the Journal are Astronist, the Journal accepts papers from across the spectrum of Astronic religions and philosophies including Cosmist, Cosmodeist and even secular perspectives.

The aim of the *Journal of Astronist Studies* is to advance the study of space religions and the doctrine of transcension in particular as an academic discipline alongside other branches of the study of religion. Another primary objective of the Journal is to explore various aspects of Astronism including its eschatology, philosophy and theology to develop understanding of Astronism as a new religious movement.

The *Journal of Astronist Studies* is published annually every August beginning in August 2024 and its volume changes every two years i.e. the August 2024 edition will be Volume 1 Issue 1 and the August 2025 edition will be Volume 1 Issue 2. The publication of the Journal is supported by the Astronist Institution.

The *Journal of Astronist Studies* was first conceived by Cometan on 29th April 2023. The Journal welcomes submissions from academics at different stages of their careers from seasoned scholars to young researchers.
